

Dispersant Tech-5204

Description

Tech-5204 is a copolymeric dispersant with controlled flocculating wetting and dispersing ability. It has good compatibility with many kinds of resin, suitable for inorganic pigments with good anti-setting performance.

Physics and Chemical properties

Ingredient: Copolymer with pigment affinity group

Appearance: Yellow transparent liquid

Content: 50%

Solvent: solvent naphtha

Specialty

1. Tech-5204 is suitable for all kinds of pigment dispersion in solvent borne coating systems, especially for leather color paste and with good compatibility.
2. Tech-5204 is a polymeric dispersant with good anti-setting and excellent store stability.

Application System and Dosage

Tech-5204 is recommended to use in solvent borne *leather and synthetic leather* coating systems.

Usually, it should be charged before the grind stage during the produce, with **5%** to **10%** to inorganic pigment

Package

25kg metal pail.
